Greetings from Mahindra École Centrale (MEC) College of Engineering, Hyderabad!

Mahindra Group has established MEC under the leadership of Professor Sanjay G Dhande (Former Director IIT Kanpur). MEC has made a high impact entry in 2014 into the higher education space with its modern approach to engineering education and by collaborating with one of Europe’s finest institutes, École Centrale Paris.

MEC features highly competent Indian and international faculty. Our Faculty-Student ratio is 1:10 and a Ph.D. is a must for all teaching faculty. Meritorious students who have performed well at SAT or JEE examinations get to join the rolls of MEC.

As we continue to expand, we are hiring highly qualified teaching and research professionals in the areas of School of Engineering Sciences (Computer Science, Mechanical, Civil and Electrical), Humanities, social sciences and Natural Sciences. With your unique and experienced vantage point, we kindly request your support to forward nominations, and/or recommendations of experienced, recent Ph.D. or Post-Doctoral Fellows. Faculty and Research emoluments are highly competitive. Industry research grants and consulting opportunities with global industry leaders would also be available. MEC is developing state of the art research infrastructure in the thrust areas of Energy, Computing, Infrastructure, Communications, Materials, Defence and Digital Media.

Our vision at MEC is to train engineers to be entrepreneurial, innovative as well as technically trained, so that they are capable of meeting the greatest challenges of their era, globally.

The MEC campus is ensconced in a 130 acre green zone, and is flanked by the Technology hub. It is a unique full-fledged facility with all modern amenities.
